Battery Charger LED

Aeronautical & General Instruments Limited

16 Way Battery Charger

NEW state of the art LED lighting technology

METALITE

Battery Charger LED

Battery Charger

Metalite's portable battery charger incorporates a drop in charging system, which is simple to use and allows fast loading and unloading of the light units before and after charging.

Up to 16 COREL, UALs or REILs (both Halogen or LED) can be charged simultaneously with 95% charge capacity being achieved within 8 hours. The charging cycle is microprocessor controlled to achieve minimum charging time with maximum battery life, self-test and diagnostic features alert users to under voltage and short circuit outputs.

FEATURES & BENEFITS

- 16 Way Simple Drop-In Charging System
- Ideal for Helipad Deployments
- COREL LED or Halogen Variant Available
- Fast Recharge in Approximately 8 Hours
- 110V or 230V Universal Input
- Ruggedised Compact Design

SPECIFICATIONS

DIMENSIONS (closed)	
Height	223mm
Width	619mm
Depth	487mm
Weight	15.5kg
INDICATIONS	
Status	Red-mains 'ON' lamp
CHARGING	
Total number of charging units	16 Maximum
VOLTAGE	
Input	90 - 240 Vac
Output on each charging outlet	18Vdc nominal
Protection	Over-current protection on mains inlet
